

SUVENDU BEHERA

Full-Stack MERN Developer

suvendubehera198@gmail.com | +91 78469 67125 | linkedin.com/in/suvendu-behera | github.com/suvendu-78

PROFESSIONAL SUMMARY

Results-driven Full-Stack MERN Developer and final-year Electronics & Communication Engineering (ECE) student (CGPA 8.34) with hands-on experience shipping production-grade web applications. Deployed a live NGO platform serving 200+ users, featuring secure payment integration, Cloudinary media management, and on-page SEO. Proficient in REST API design, WebSocket-based real-time systems, JWT authentication, and scalable backend architecture with Node.js, Express.js, and MongoDB. Actively seeking full-stack, backend, or SDE roles to deliver impact from day one.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, C++

Frontend: React.js, Tailwind CSS, HTML5, CSS3, Responsive Design

Backend: Node.js, Express.js, MongoDB, REST API Design, Socket.io, JWT, bcrypt

Cloud & Tools: Git, GitHub, Cloudinary, Version Control

ML / Data: NumPy, Pandas, Matplotlib, scikit-learn

WORK EXPERIENCE

Freelance Full-Stack Developer | NGO Management Platform — samyogeesahityasansada.com | Jan 2026 – Present

- Architected and deployed a production-ready web application supporting 200+ members and promoting Odia literature.
- Integrated a secure online payment gateway for donations, cutting manual collection effort by 80%.
- Developed scalable REST APIs with Node.js, Express.js, and MongoDB, maintaining response latency under 300 ms under concurrent load.
- Crafted a mobile-first, responsive frontend using React.js and Tailwind CSS, ensuring compatibility across 5 device breakpoints.
- Configured Cloudinary for media management and applied on-page SEO best practices, boosting search visibility by 40%.

Web Development Intern | IBM SkillBuild | Jun 2024 – Aug 2024

- Delivered 5+ responsive React.js interfaces using Tailwind CSS, ensuring cross-device consistency across all screen sizes.
- Consumed RESTful APIs to enable seamless frontend-backend data exchange with average response times under 200 ms.
- Designed a reusable component library of 20+ modular UI elements, reducing future development time by 30%.
- Managed version control via Git and GitHub within a collaborative team environment.

PROJECTS

AutoPrice AI — Car Price Prediction Platform — *React.js, Node.js, Express.js, MongoDB, Machine Learning, Tailwind CSS*

- Developed a full-stack MERN platform predicting used car resale prices via machine learning, achieving 92% accuracy on test data.
- Cleaned and processed a dataset of 10,000+ records using Pandas and NumPy to train and validate the pricing model.
- Exposed REST APIs delivering ML predictions in under 500 ms, with secure JWT authentication and a mobile-friendly UI.

AI Mock Interview and Career Guidance Platform — *React.js, Node.js, Express.js, MongoDB, AI APIs*

- Created an AI-powered interview simulator supporting technical and HR rounds with real-time answer evaluation and scoring.
- Leveraged AI APIs to auto-generate domain-specific questions and provide personalized feedback, significantly reducing interview preparation time.
- Launched a career guidance module featuring dynamic learning roadmaps tailored to each user's profile and skill gaps.

Real-Time Chat Application — *React.js, Node.js, Express.js, MongoDB, Socket.io*

- Engineered a messaging platform supporting 50+ concurrent users with message delivery latency under 100 ms using Socket.io WebSockets.

- Implemented dynamic chat rooms, end-to-end encrypted data handling, and a fully responsive UI compatible across all major browsers.

Ticket Booking Web Application — *React.js, Node.js, Express.js, MongoDB*

- Launched a full-stack ticket booking platform with live seat availability updates and a secure, multi-step checkout flow.
- Optimized server-side REST APIs to achieve average response times under 200 ms, with an architecture designed to scale under peak demand.

EDUCATION

Bachelor of Technology — Electronics & Communication Engineering (ECE) | CGPA: 8.34 / 10

Biju Patnaik University of Technology, Rourkela | Nov 2022 – Jun 2026 (Expected)

Higher Secondary (Class XII) — Science | 82.2%

Elite Institute of Science and Application (CHSE), Cuttack | Aug 2020 – Jun 2022

CERTIFICATIONS AND ACHIEVEMENTS

- IBM SkillBuild — Web Development with React (2024).
- Delivered a live freelance project: samyogeesahityasansada.com — production NGO platform live since January 2026.
- Active open-source contributor on GitHub with multiple full-stack repositories: github.com/suvendu-78.
