EDUCATION

BIJU PATNAIK UNIVERSITY OF TECHNOLOGY

Bachelor of Technology In Electronics & Communication Engineering
Cumulative CGPA: 7.56/10

Rourkela , Odisha
Expected June 2026

BALASORE SCHOOL OF ENGINEERING

Diploma In Electronics & Tele-Communication Engineering

Balasore, Odisha
Jul 2019 - Jul 2022

WORKEXPERIENCE

SAMYOGEE SAHITYA SAMSAD (Freelancer)

Technical Head

Keonjhar, Odisha
Jan 2026 – Present

- Engineered a high-performance MERN stack web platform serving 500+ monthly users, reducing page load time by 40% through API optimization, caching, and React code-splitting
- Integrated Razorpay real-time payment gateway with secure order verification , enabling seamless online transactions and increasing digital payment adoption by 60%
- Architected scalable backend infrastructure with JWT-based authentication and role-based admin controls, supporting event registrations, content management, and secure payment processing with 99.9% uptime

CSRBOX (IBM-SKILL BUILD)

Frontend Developer Intern

Remote
Jun 2025 – Aug 2025

- Completed Frontend Developer Internship at CSRBOX under IBM Skill Build program, developing a responsive NGO website using React.js, improving user engagement and accessibility across mobile and desktop devices
- Collaborated with backend and design teams to implement dynamic UI components, optimized page performance by 35%, and delivered a production-ready interface aligned with client requirements

PROJECTS

IOT BASED AIR QUALITY MONITORING AND ALERTING SYSTEM

- Built an IoT-based Air Quality Monitoring System using ESP32 integrated with DSM501A, MQ7, MQ2, MQ135, DHT22, BMP280, and GPS module for real-time, location-based pollution tracking during BPUT Hackathon 2025
- Developed a MERN stack + Firebase cloud dashboard for live AQI visualization, data storage, and alert notifications, enabling remote environmental monitoring and instant threshold-based warnings
- Designed a solar-powered, battery-operated outdoor deployment model ensuring continuous monitoring with optimized power consumption for long-term field usage

AI-MOCK-INTERVIEW-PLATFORM

- Built an AI-powered Mock Interview Platform using Next.js, React, and Tailwind CSS, implementing scalable backend architecture with Drizzle ORM and Neon DB for efficient data management
- Integrated GPT-5 and speech-to-text for real-time interview simulation and automated feedback, enhancing user experience with Framer Motion, GSAP animations, and webcam-based interaction features

STREAMIFY- CHAT-VIDEOCALLING-PLATFORM

- Developed Streamify, a real-time chat and video calling application using the MERN stack with Stream API integration, enabling seamless instant messaging and high-quality video communication
- Implemented secure authentication (JWT-based login/signup), friend request & acceptance system, and responsive UI design to deliver scalable, secure, and engaging user interactions

AI-THERAPIST AGENT WEB APP

- Developed an AI-powered therapy platform enabling emotionally intelligent conversations and real-time stress detection, integrating mood tracking and AI-driven mental health analytics for personalized support
- Built a secure, responsive web interface with authentication and dark/light mode support, incorporating interactive therapeutic modules such as guided breathing, zen garden, and virtual forest experiences to enhance user engagement

ADDITIONAL

Technical Skills: C, Python, HTML, CSS, JavaScript, React, Next.js, Tailwind CSS, Node.js, Express.js, RESTful APIs, MongoDB, PostgreSQL, NumPy, Pandas, Data Visualization, Git, GitHub, Postman, Linux Basics, IoT

Languages: English, Hindi, Odia

Certifications & Training: Full-Stack Web Dev Course – AlgoPrep(2023-25), Frontend Development-Coursera(2023), BPUT HACKATHON FINALIST(2025), Linux (Udemy)
